STRIKING DOGS FROM THE RECORD - Should a dog have been admitted to registration, a litter enrolled, or ownership transferred through misrepresentation or fraud, the North American Versatile Hunting Dog Association, on discovery of same, reserves the right to declare the registration, enrollment, or transfer void, together with any entries that may have been made of any descendants of such dog.

DO NOT COMPLETE THIS PAGE IF THE PUPPIES DO NOT HAVE OWNERS

Registration must be paid for the ENTIRE LITTER. If owner information is not provided, a pre-paid dog registration form will be issued to the breeder. The Certificate of Registration & Pedigree or the Pre-Paid Dog Registration forms will be sent to the breeder unless otherwise requested.

BREEDER'S NAMING YOUR PUPPIES. If you want the puppies to carry your Kennel Name, insert it in the dog's name line below. Review the list of [NAVHDA Registered/Protected Kennel Names](#) and the [Policy & Procedures for Naming of Dogs](#) prior to naming the puppies. If you want to use another NAVHDA Protected Kennel Name for your entire litter, a permission signature from the Primary Kennel Owner is required.

Breeding Restriction: The dogs record will be marked **NCFB (NOT CERTIFIED FOR BREEDING)**. Puppies from this dog are not registerable with NAVHDA, AKC or AMERICAN FIELD. If the breeder wishes to indicate dog(s) to be registered with a Breeding Restriction, each individual dog carrying this restriction must be indicated clearly by initialing the box at the end of the registration information line. Each dog that is indicated with a Breeding Restriction will receive this notation on their pedigree and in the dog's record. Revocation of this restriction is expensive and time consuming. Be sure when initialing this box that you are convinced this restriction is necessary. It is the breeder's ethical duty to inform the buyer prior to purchase that the dog's registration papers will be printed with a Breeding Restriction. See WWW.NAVHDA.org under [Menu/Registry/About the NAVHDA Registry](#) for complete details.
